

>B< Press Inox

The >B< Press Inox Stainless Steel range is an innovative press system which is quick and simple to install providing a secure fitting.

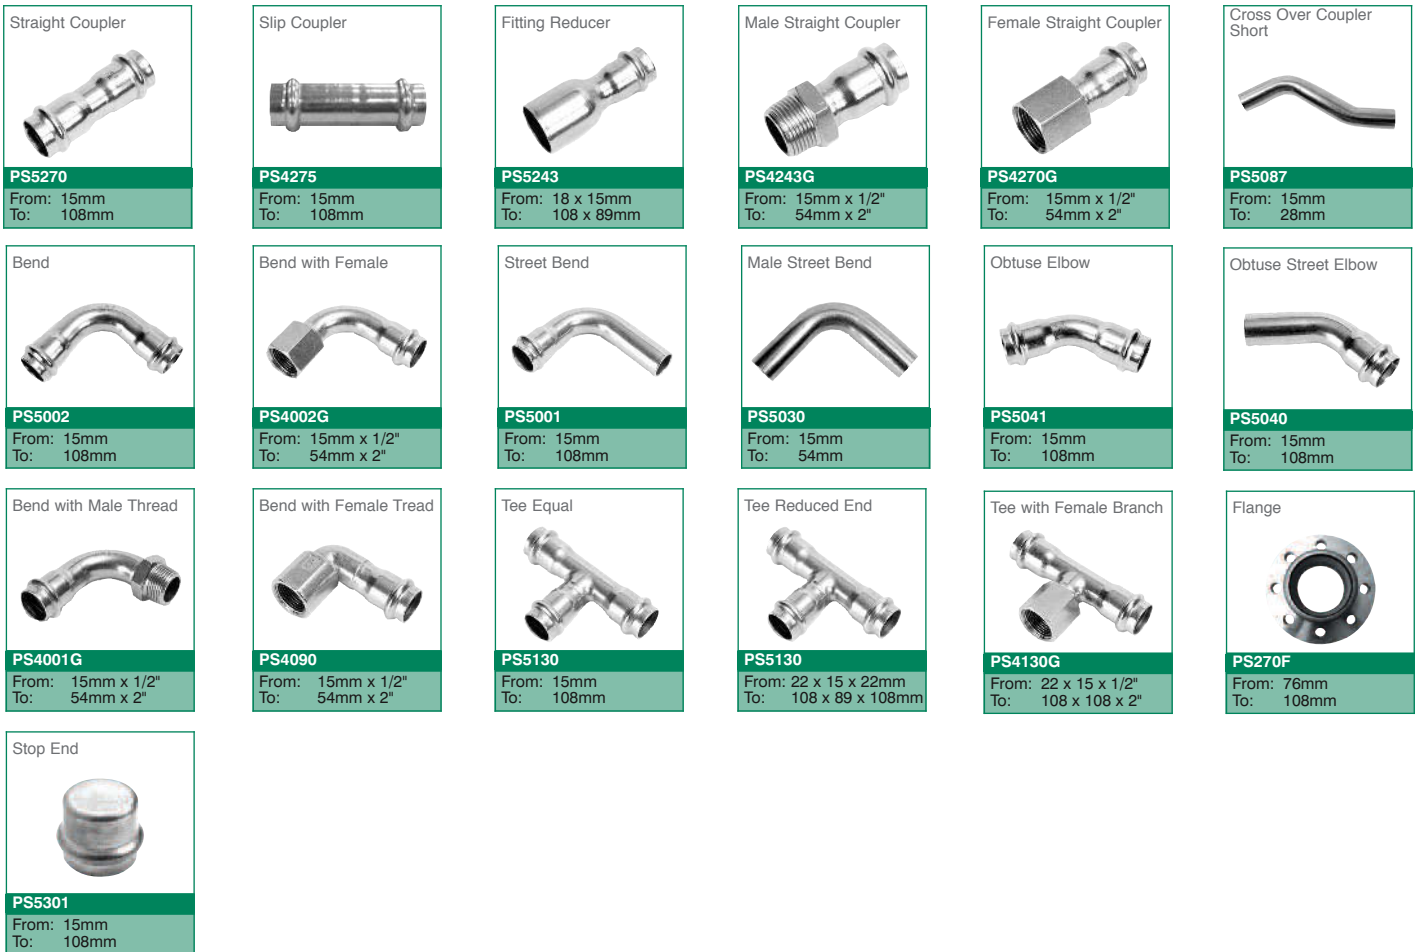

Features and Benefits:

- >B< Profile 3 point press ensures a leak free, secure and permanent joint*.
- The leading edge design ensures that the pipe is parallel to the fitting before contact with the o-ring greatly reducing the chance of damaging the o-ring during assembly.
- >B< Press has a high quality o-ring with a reduced section on two positions causing leaks at low pressure when not pressed (from 0.1 bar). When the fitting is pressed, the o-ring material compresses itself to form a secure leak free joint.
- Flame free for ensuring no hot works and on site safety.
- Available in 12mm to 108mm.
- Un-pressed joints can be identified and corrected quickly without the need to drain the system down; making >B< Press a very quick and simple fitting to install, saving time and money.
- Mechanical hexagonal press form; gives a clear visual indication that it has been successfully secured both mechanically and hydraulically ensuring no joint rotation.
- The >B< Profile is the approved Conex Bänninger designed press form and the fittings are also compatible with various tools and jaws. This ensures that majority of existing systems work fully with the >B< Profile.

*Only available on sizes 12 to 54mm

>B< Press Inox range with Pressing Indicator

- Manufactured from stainless steel.
- Specially designed EPDM o-ring making >B< Press Inox suitable for HVAC, hot & cold and drinking water applications.
- Available in sizes 12 – 108mm.
- >B< Press Inox tube system available using precision steel tubes according to EN 10312.
- Designed for hydrostatic water pressure up to 16 bar.
- Designed for temperature ranges of -35°C to 110°C.
- Fully tested to 40 bar.
- Full system available with approved >B< Inox tubes. System guarantee is 10 years.
- Fittings guarantee is 5 years when used with tubes in accordance with EN 10312.

*Conex|Bänninger products are approved by numerous Standards Authorities and Certification Bodies. For more details on this product range, please email our technical team at: technical@ibpgroup.com.
