

>B< Press Inox

The >B< Press Inox Stainless Steel range is an innovative press system which is quick and simple to install providing a secure fitting.

Features and Benefits:

- >B< Profile 3 point press ensures a leak free, secure and permanent joint*.
- The leading edge design ensures that the pipe is parallel to the fitting before contact with the o-ring greatly reducing the chance of damaging the o-ring during assembly.
- >B< Press has a high quality o-ring with a reduced section on two positions causing leaks at low pressure when not pressed (from 0.1 bar). When the fitting is pressed, the o-ring material compresses itself to form a secure leak free joint.
- Flame free for ensuring no hot works and on site safety.
- Available in 12mm to 108mm.
- Un-pressed joints can be identified and corrected quickly without the need to drain the system down; making >B< Press a very quick and simple fitting to install, saving time and money.
- Mechanical hexagonal press form; gives a clear visual indication that it has been successfully secured both mechanically and hydraulically ensuring no joint rotation.
- The >B< Profile is the approved Conex Bänninger designed press form and the fittings are also compatible with various tools and jaws. This ensures that majority of existing systems work fully with the >B< Profile.

*Only available on sizes 12 to 54mm

>B< Press Inox range with Pressing Indicator

<p>Straight Coupler</p>  <p>PS5270 From: 15mm To: 108mm</p>	<p>Slip Coupler</p>  <p>PS4275 From: 15mm To: 108mm</p>	<p>Fitting Reducer</p>  <p>PS5243 From: 18 x 15mm To: 108 x 89mm</p>	<p>Male Straight Coupler</p>  <p>PS4243G From: 15mm x 1/2" To: 54mm x 2"</p>	<p>Female Straight Coupler</p>  <p>PS4270G From: 15mm x 1/2" To: 54mm x 2"</p>	<p>Cross Over Coupler Short</p>  <p>PS5087 From: 15mm To: 28mm</p>

- Manufactured from stainless steel.
- Specially designed EPDM o-ring making >B< Press Inox suitable for HVAC, hot & cold and drinking water applications.
- Available in sizes 12 – 108mm.
- >B< Press Inox tube system available using precision steel tubes according to EN 10312.
- Designed for hydrostatic water pressure up to 16 bar.
- Designed for temperature ranges of -35°C to 110°C.
- Fully tested to 40 bar.
- Full system available with approved >B< Inox tubes. System guarantee is 10 years.
- Fittings guarantee is 5 years when used with tubes in accordance with EN 10312.

*Les produits Conex/Bänninger sont certifiés par de nombreuses Autorités et Laboratoires de certification. Pour plus de détails sur cette gamme de produit, vous pouvez contacter par email notre équipe technique au : technical@ibpgroup.com
